As part of the production team, you will be involved in the implementation of features and components throughout the full spectrum of web development. You will be using a variety of technologies and programming languages, including but not limited to C#, TypeScript, SCSS and frontend frameworks like AngularJS and Vue.js.

You will work closely with a multi-disciplinary team of programmers, designers and testers where everyone is willing to share their knowledge and are encouraged to evolve every day. The team spans across several countries and is characterized by passion, collaboration and the love for PC gaming.

You will also have the option to visit and work from collaborating studios

Responsibilities:

As a Junior Full-Stack web developer, you will design, develop and deploy both frontend and backend applications, enriching the Uplay ecosystem and empowering the team to handle player-facing features and contents.

You'll be using a wide spectrum of technologies ranging from frontend to backend, TypeScript to C#, component styling to data persistence.

- write clear, modular and maintainable code
- work on both front- and backend application in the context of Uplay PC
- be part of an agile team collaboratively working on technical designs, new features as well as steady improvements of existing code

You as a person:

We believe to succeed in this role you're a result focused person, who is passionate about developing platform software for games with millions of users. Furthermore, you believe in team ownership of what you craft and will be working with your colleagues to learn, share ideas and solve complex problems.

You as a person:

We believe to succeed in this role you're a result focused person, who is passionate about developing platform software for games with millions of users. Furthermore, you believe in team ownership of what you craft and will be working with your colleagues to learn, share ideas and solve complex problems.

- Confident in either C# or JavaScript (resp. TypeScript)
- Knowledge in at least one of the following topics: ASP.NET, SQL, REST
- First hands-on experience with a modern frontend framework (Angular, Vue, React)

Your Benefits

- Relocation Support: We offer financial support in form of a cash allowance and assistance with accommodation search and settle-in support via our relocation partner, for international candidates we offer visa assistance.
- 26 days paid vacation per year. Additionally, you will get half a day off on Christmas Eve and New Year's Eve and approximately 11 bank holidays in the NRW region.
- Flexible Working Hours: We have core working times between 10:00 AM - 04:00 PM and the distribution of the other hours is up to you.
- Company Pension Scheme. We offer an attractive scheme through salary sacrificing in which the employer also matches contributions
- Up to 350€ childcare support per child per month. In addition, we also offer 5 'care for ill children days' per child per year.
- Discounted Games. We regularly order Ubisoft Games for super cheap prices for our employees.
- Gym Subsidy. We contribute 50% (up to a maximum amount of 25€) towards the monthly cost of a gym membership of your choice.
- Lunch & Breakfast Service. Enjoy fresh discounted meals each day.
- Monthly Mobility Budget. 80€ per month that can be used on bicycle lease, parking spot rental or public transportation ticket.
- Our Ubisoft Blue Byte Academy offers multiple opportunities for you to discover your full potential and develop yourself in various areas.
- English and German classes for free. Main language in the studio is English.
- Free fresh Fruit, Coffee, Tea and Water. Enjoy fresh fruit and beverages in our office.
