As an UI/UX programmer, you develop intuitive and outstanding UI/UX for Ubisoft's Rainbow Six Siege in close collaboration with UI/UX artists & designers as well as other front- and backend programmers.

You will develop outstanding UI solutions for Rainbow Six Siege using C++. This includes improvements of the existing game UI and the corresponding framework, implementation of new features, setting up wireframes for artists & designers and implementation of client-side UI logics. For this, you will collaborate closely with peers in Montreal as well as with designers, artists & programmers in the teams in Düsseldorf and Mainz.

- Implementation of UI components in C++
 - Improving and extending existing game UI and UI Framework
 - Setting up wireframes for UI Artists and Designers to work in
 - Design and Implement client-side UI logic
 - Directly communicating with UI/UX designers & artists
 - Working closely together with the Montreal UI team
-
- Strong programming skills in C++
 - Understanding of the MVVM pattern
 - Very good communication skills and ability & desire to work as a team player
 - Good debugging and problem solving skills
 - Ability to work efficiently with large, existing code bases
 - Solid understanding of UX/UI design principles
 - Good English (spoken and written)
 - Passion for making and playing games
