

(Intermediate/Senior) Backend Programmer [Unannounced Project] (f/m/d)

Berlin - Full-time - 743999711686227

Apply Now:

<https://jobs.smartrecruiters.com/Ubisoft2/743999711686227--intermediate-senior-backend-programmer-unannounced-project-f-m-d?oga=true>

As a Backend Programmer you will:

- Collaborate with designers and gameplay programmers to bring new features into the game
- Develop and maintain backend parts of game specific features
- Integrate monitoring solutions
- Continuously improve the fidelity of the online experience (anti-cheating, latency etc.)
- Provide support to live service teams
- Review the work of other engineers
- Create and maintain technical documentation

As a Senior Backend Programmer you will:

- Design and implement backend parts of game specific features
- Collaborate with local and remote teams to analyze technical requirements
- Review the work of other engineers
- Integrate monitoring solutions
- Design scenarios for load tests
- Design tools that will enable live support teams to be self-sufficient
- Continuously improve the fidelity of the online experience (anti-cheating, latency etc.)
- Improve performance and resilience of the backend infrastructure
- Manage and mentor individuals within the engineering team

We aim to have a wide and diverse range of profiles within our studio; thus, we are looking forward to being surprised by your application. The most important quality for us is to be a strong team player with a resilient and positive attitude.

- Experience with common stacks of deployment and monitoring tools
- Excellent communication and English skills
- Experience in guiding and mentoring other programmers

Nice to have:

- Experience in videogames industry
- Experience with leading a development team
- Experience with meeting security and compliance requirements
- Experience with CI/CD pipelines
- Passion for videogames

What we want to offer you:

We want to build a studio in which everyone feels inspired, empowered and connected. We

believe developers do their best work when they feel empowered. We thus aim to give you a lot of autonomy. In return, we expect you to be self-responsible and stay on top of your game by continuously developing your skills. Furthermore, we know it is important for a developer to feel comfortable. With that in mind, we aim to provide a variety of everyday benefits which we hope will help you feel great including:

- Flexible working hours
- External training, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruit, discounted gym membership, support for child care, company pension scheme
- Share ideas! = Working in an innovative and international company

If you are passionate about video games and would like to work with like-minded professionals with an international team, please apply via our career portal. Applications should include your resume, a cover letter with the earliest starting date, your salary expectation and why you would like to join us.
