Anno is a critically acclaimed and award-winning franchise, offering a rich city-building experience and providing players ample opportunity to create huge metropolises, plan efficient logistics networks, explore and settle new lands and dominate their opponents by diplomacy, trade or warfare.

As a Game Designer on our team, you'll be the creative energy behind our comprehensible, consistent and elegant systems for our game. You translate the project's vision into actual gameplay and enable our players to make meaningful and unique experiences within our game world.

From concept phase to the final gameplay, you take part in creating, iterating and fine-tuning designs that are engaging, innovative and fun. You work on both, the tiny details that make for high quality design and the bigger picture where all pieces fall into place to create an overall outstanding player experience.

## What you will do:

- Create intuitive, consistent, and elegant game systems and drive their development towards the vision laid out by the Game Director and Lead Game Designer while making sure to meet production directives
- Organize and oversee feature creation processes and propose improvements where necessary
- Adjust game systems to achieve a well-balanced gameplay experience
- Standardize and communicate the game-systems to the dev team while maintaining clean design documentation
- Ensure effective and clear communication with the dev team through strong visualization of game systems in the form of charts and graphics

## What you bring:

- Minimum 2 years of experience within the game design or other relevant experience; ideally having worked on at least one AAA title
- Good knowledge of systems, balancing, and gameplay fundamentals
- Good communication, interpersonal, and organizational skills

- Good understanding of content creation processes
- Good knowledge of game production pipelines and familiarity with scheduling, task, and issue tracking tools (such as Perforce, Jira, etc.)
- Ability to learn and master new tools and techniques
- Able to apply critical and analytical thinking to solve complex challenges
- Strong verbal and written English skills
- Team player with a passion for game mechanics, a positive attitude, and a superior motivation to create high-quality content

\* Basic knowledge of scripting/coding is a plus

\* German skills are a plus
