In order to continue delivering highly qualitative and innovative game plays we are looking for a motivated and passionate Service Programmer (C#) (f/m/d) at Ubisoft Düsseldorf, that aspires to take games to the next level. In ambitious projects you will build up and maintain high-value productions as Developer in a multi-cultural team. With your experience, you are able to provide a strong technical background, collaborate with teams all around the world and support the team to create a great online services suite for Ubisoft Games (including AAA Games).

What you will do:

- Develop and maintain new and existing online service used throughout the company
- Define and design software requirements and specifications based on user requirements
- Cooperate with project management to ensure on-time high quality delivery for the product departments
- Thoroughly document your work in order to transfer knowledge to your team members
- Ability to create a development plan and break it down into small, clear tasks

What you bring:

- Overall 5 years' experience as a C# software engineer
- Strong background in Restful Web Services (both consuming and producing sides)
- Micro Service Architecture experience
- Knowledge of Agile and Continuous Delivery practices
- Ability to work in an agile, fluent English speaking team
- Familiar with analyzing and debugging performance issues

* Experience with DevOps culture is a plus

* Experience with AWS or other cloud providers is a plus

* Experience with Linux is a plus

What to send our way:

- Your CV, highlighting your education, experience and skills
- A cover letter including your earliest starting date, expected salary and why you would like to join us
