- Foster the collaboration between the different departments
- Define the roadmap together with other related leads and the Technical Director
- Break down the roadmap and support handling of all tasks for the departments
- Collaborate with other Ubisoft studios to extend the capabilities of our in-house technology
- Define budgets and workflows for all related departments
- Establish workflows and techniques to improve the overall development process for all departments
- Participate in the hiring process

What you bring:

- Lead Graphics Programmer or similar role in at least one AAA title
- Ability to work in a dynamic and collaborative team environment
- Self-direction and motivation
- Excellent communication and good English skills
- Strong skills in C/C++

Nice to have:

- Experience as developer in a related tech area (engine/graphics/physics/...)
- Experience in using different CPU/GPU and memory profiling tools to drive your decisions
- Experience with platforms where performance/bandwidth restrictions exist
- Understanding of hardware architecture and details

Your benefits:
